

How to Create the Perfect Homeschool for your Family

Creating the perfect homeschool for your family starts with focusing on the WHY. Use this worksheet as a guide to get you started writing your story. You may need additional space to fully explain your why but use this as a starting point.

1. How has God led your family to this point of starting to homeschool?

2. What is your foundational WHY of beginning this journey as a family?

3. Where are you headed? What is your vision for the next year and beyond?
